Second meeting of the Technical Dialogue (TD2)

October 9th, 2018 – 9:30 to 17:00 – Warsaw

Location: Golden Tulip, Towarowa 2, 00-811 Warsaw

Draft AGENDA

09:00	Arrival: registration and coffee
09:30	**Welcome and introductions - to each other and the project** • *Aleksander Sniegocki, WiseEuropa* • *Vicki Duscha, Fraunhofer ISI (for Climate Recon 2050)*
09:45	**Insights in current state of 2050 modelling in MS** • *Poland - Robert Jeszke (National Centre for Emissions Management - KOBiZE)* • *Czech Republic - Michal Daňhelka (Ministry of the Environment)* • *Lithuania - Vidas Lekavičius (Lithuanian Energy Institute)* • *Slovenia - Katarina Trstenjak (Jožef Stefan Institute)* *Moderator: Aleksander Sniegocki, WiseEuropa*
10:30	Coffee break

Draft AGENDA - continued

11:00	**EU & MS modelling** • Introduction: Modelling at MS level and EU level *Vicki Duscha, Fraunhofer ISI* • Experience from brining a MS scenario to a EU level *Yves Marignac, Association négaWatt* • Statements from participants to the questions ⇒ *What are your experiences in working with the Commission?* ⇒ *How does your work on MS level connect with the work on the EU level?* Joint discussion with participants *Moderator: Vicki Duscha, Fraunhofer ISI*
12:30	Lunch
13:30	**Transparency of modelling - What models do and what they don't do** • Opening up energy system models - lessons learned and remaining challenges *Frauke Wiese/ Marie Münster, DTU Copenhagen* • Statements from participants to the questions ⇒ *Can and should full transparency be reached in modelling?* ⇒ *How transparent is the model you are working with?* ⇒ *What are the crucial challenges from your point of view for increasing transparency in energy modelling?* ⇒ *What needs to be done and who can do that?* Joint discussions with participants *Moderator: Frauke Wiese, DTU Copenhagen*
15:00	**Coffee break**

15:30	**Communication of results to policy makers: developing narratives**
	• How to develop a joint story?
	○ Introduction: How to develop policy-relevant narratives - insights from the Deep Decarbonization Pathways Project (DDPP)
	Judith Voss-Stemping, IDDRI
	○ Narratives for carbon neutrality in 2050: national experience from Portugal
	Pedro Barata, Get2C
	• Brief inputs from national experiences in Poland, Hungary and Italy
	Joint discussion among participants
	• What should be included in the narrative?
	⇒ *What are the implications of different ambition levels (2°C/1.5°C)?*
	⇒ *How to account for difficult sectors or other obstacles?*
	⇒ *How to frame narratives around co-benefits?*
	• How to present narratives to different stakeholders?
	⇒ *How much detail is necessary for whom?*
	⇒ *What communication tools are most effective?*
	Moderator: Judith Voss-Stemping, IDDRI
16:55	**Summary** and closure of the meeting - outlook for PMP2 next day and for future meetings
17:00	**END**

NOTE:

This workshop will take place back-to-back with the 2nd meeting of the Policy-Maker Platform (October 10).

Topics to be addressed:

- Interactions and linkages between the EU and Member States

- Relationship of 2030 NECPs to 2050 LTS: potential synergies and conflicts

- How can policy-making and long-term scenario modelling best interact?

- Stakeholder engagement - benefits, challenges, best practice

OUTLOOK:

3rd meetings of the Technical Dialogue and the Policy-Maker Platform to take place in February/March 2019 at the EEA in Copenhagen – dates will be available soon.

Topics to be addressed:

- Going carbon "neutral": options for and implications of "negative emissions"

- Anticipating economic impacts: proactive transition strategies (and modelling distributive effects)

- Governance of long-term strategies: procedures for implementation, monitoring and review
